## Summary and Objective

---

I am a recently graduated web developer with experience in various frontend and backend frameworks. My goal is to work as a full-time web developer with a reputable employer. I want to help people accomplish their business goals with the skills I have learned as a fledgling web developer. I am excited to learn any programming language necessary to help accomplish my goals and begin my career as a Web Developer.

In my previous career I was an educator. I have 9 years of experience in educational development, curriculum design, and project management. I am an accomplished problem solver with the ability to identify client and organizational needs while managing several competitive projects and coordinating events. I gravitate toward ambitious goals and competition, I love the challenge and all of my projects consistently received the highest recognition possible for 8 years. I am a natural leader known for excellent verbal and written communication skills, strong interpersonal skills, and an avid public speaker
